We thoroughly test all our seeds and nothing is sent out which we do not believe to be good, strong germination, and that will grow under any reasonable conditions; still crops are contingent upon so many conditions, etc., over which we have no control, including soil, weather, time and manner of planting, cultivation, etc., that we cannot be responsible for the product and give no warranty, expressed or implied, as to description, quality, quantity or productiveness of any seed sent out by us, and every order for seeds named in this Price List will be executed on these conditions only. And if the purchaser does not accept the seeds on these terms and conditions they are to be returned within 10 days. It must, however, be plain to every one who gives the matter the slightest thought, that it is to our best interest to send out only such seed stock as will not only grow, but prove true to name and description.
